Executive Summary

City of Belmont Awarded C/CAG Priority Development Area (PDA) Planning Grant

In January 2014, the Belmont City Council authorized submittal of an application to the City/County Association of Governments (C/CAG) for a Priority Development Area (PDA) Planning Grant to be used for the preparation of a Belmont Village Specific/Implementation Plan. This Plan one of six priority action items approved by the City Council to be completed as part of the City's comprehensive Downtown Belmont revitalization efforts. On May 8th the C/CAG Board of Directors awarded funding to three projects that were recommended by the scoring panel. The Belmont Village Specific/Implementation Plan is one of those three projects; the grant amount for Belmont was \$440,000. Over the next several months staff will be working with C/CAG and the Metropolitan Transportation Commission (MTC) to obtain these federal funds; work on the project is expected to commence in January 2015.

Project Information: In January 2012, the Belmont City Council adopted a resolution designating the entire Belmont Village zoning district as a PDA. PDA's are locally-identified, infill development opportunity areas within existing communities where there is local commitment to developing housing near existing or planned transit facilities. Designated PDA's are eligible to receive One Bay Area Grant Program funds that seek to direct investments of federal funds in a manner that stimulates the production of housing in areas well-served by transportation, particularly public transit. The City's draft Belmont Village Element, Zoning, and Design guidelines documents have already provided an opportunity for extensive community discussion about desired land uses and building types for downtown Belmont. The Belmont Village Specific/Implementation Plan would complement and enhance the Belmont Village land use analysis work by:

- Developing geographically specific goals/priorities for different areas within downtown Belmont (i.e. residential areas vs. pedestrian retail corridor);
- Establishing desired building prototypes through a community process that considers specific building prototypes and educates the public about effective tools for ensuring building quality while still allowing developers to build financially feasible buildings; and,
- Developing area-wide parking, streetscape and financing implementation strategies that facilitate collaboration between the public and private sector.

Our staff did an outstanding job securing these grant funds, thanks for the great work!

Java with Jerry

A group of Belmont neighbors that included Mayor Lieberman filled the Belli Deli on Saturday for "Java with Jerry". This Town Hall event was hosted by Senator Jerry Hill who enthusiastically presented his vision for the future and fielded questions from the crowd; and named Belmont resident Carilee Pang Chen as a Community Champion of the 13th Senate District (below is a press release from the Senator's office about the award recipient).

Photo courtesy of Mary Morrissey-Parden, Belmont Chamber of Commerce

Community Champion Award

Here is the text of the Certificate of Recognition for Ms. Chen:

Presented to
CARILEE PANG CHEN

The State of California 13th Senate District **COMMUNITY CHAMPION AWARD**

Congratulations to Carilee Pang Chen, who has worked tirelessly to improve the quality of life for residents in our community through her role on the board of directors for the Sterling Downs Homeowners Association, and through her position at Rebuilding Together, a nonprofit that assists low-income residents with home repairs. Her efforts with the Friends of Mandarin Scholars Program in the San Mateo-Foster City School District are inspiring. I applaud Ms. Pang Chen for her strong commitment to Belmont, and am proud to name her a recipient of the Community Champion Award for the 13th Senate District.

Ms. Chen's bio is posted at <http://rebuildingtogetherpeninsula.org/>, the website for Rebuilding Together Peninsula, where she is associate director.

2014 Law and Legislation Day in Sacramento

This week Chief Dan DeSmidt participated in the California Police Chiefs Association 2014 Law and Legislation Day in Sacramento. This event provides a unique opportunity to meet directly with lawmakers.

Coffee with a Cop

The Belmont Chamber of Commerce hosted the inaugural "Coffee with a Cop" event at Doc's Bagels in the Carlmont Shopping Center on Tuesday. This was the first of what is intended to be a monthly event that encourages residents to meet with Belmont Police Department staff and talk about our community.

Chief Dan DeSmidt was on hand for this this kick-off event which is scheduled to be held on the first Tuesday of each month (7am-9am).

For more information contact the Belmont Chamber of Commerce www.belmontchamber.org

**Code Change - Sidewalk Maintenance Responsibility in the former Redevelopment Area**

California State Law and the Belmont City Code (BCC) require property owners to be responsible for public sidewalk maintenance and repair. The BCC included an exception which allowed the former Redevelopment Agency to assume responsibility for the maintenance of sidewalks in the downtown area.

In 2012 the California legislature took action to dissolve all redevelopment agencies in the State and this dissolution has necessitated the removal of the sidewalk exception in the BCC. An amendment to the City Code was introduced by the City Council at their meeting on May 13, 2014. The amendment will become effective 30 days after its adoption by the City Council, at its May 27, 2014 meeting. When adopted, the responsibility for maintenance of sidewalks, including special treatments, will return to the property owners in the downtown area, just like the remainder of the City. The City will also be making repairs, where necessary, to the sidewalk areas with special treatments as part of this change.

If you have any questions, you can contact the Public Works Department at (650) 595-7425.

RALSTON AVENUE CORRIDOR STUDY COMMUNITY OPEN HOUSE

During the first community meeting in April 2013, we heard from the community about the challenges and opportunities for improvement along Ralston Avenue.

At the workshop in September 2013 we heard community ideas and preferences on potential improvement concepts. The third public meeting in February 2014 included a presentation of recommended conceptual improvements to Ralston Avenue. In April 2014 a presentation was made to the Parks & Recreation Commission and a follow up Study Session was held with the City Council.

The purpose of this sixth community engagement meeting is to gather additional public feedback on the recommended conceptual improvements. The public Open House will have an interactive format to help entertain comments about problem areas along the roadway, and the proposed conceptual improvement alternatives generated during the 18 month community engagement process. Interactive information stations will be available throughout the evening. Community members are encouraged to drop in at a time convenient for them.

Community Open House

Please join us:

Wednesday, May 21, 2014

6:00-7:30 p.m.

Twin Pines Senior and Community Center

20 Twin Pines Lane; Belmont, CA 94002

We want to hear from you!

Public participation is an important and ongoing part of the study. The community has guided the vision and outcomes. The public is invited to look through maps and displays and speak to team members who will be available to answer questions.

To learn more about the Corridor study, visit the project [website](http://www.ralstonavenuecorridorstudy.org):

RALSTON AVENUE CORRIDOR STUDY **COMMUNITY OPEN HOUSE -** **DRAFT CONCEPTUAL IMPROVEMENTS**

YOUR INPUT IS NEEDED

The Belmont City Council and Public Works Department invite you to attend the fourth public meeting for the Ralston Avenue Corridor Study.

The City has embarked on a mobility assessment for Ralston Avenue from State Route 92 in the west to U.S. Highway 101 in the east. The goal of the project is to identify key short-term and long-term transportation projects that will address walkability, bicycling access to transit and traffic flow along the corridor. As this corridor is diverse in pedestrian activity, traffic patterns and community character, the corridor has been broken into three distinct zones. By breaking the corridor down, the community and project team can focus on the specific issues within that area.

Visit the website below for information on upcoming meetings, background documents, and other opportunities to share your thoughts.

ralstonavenuecorridorstudy.org

Public Works Weekly Maintenance Highlights

Sewer Division

- Jetted 7,058 feet of sewer main
- Inspected and cleaned 11 sewer pump stations
- The service truck (205) responded to 9 service calls
- The Close Circuit TV van videoed 4,259 feet of sewer main
- Contracted root foaming experts (Duke's Root Control) treated 13,392 feet of sewer main
- Installed a debris catcher in the wet well at the Ralston Ranch Pump Station which will capture large items and prevent unnecessary pump failures.
- Repaired the trough in a Manhole at 1633 Notre Dame.

Storm Division

- Inspected and cleaned 2 storm pump stations including enhanced wet well inspections.
- Swept 104 curb miles and collected 11.76 tons of debris during regular sweeping.
- Twice weekly inspection of Water Dog Lake Trail including the V-ditch, spillway, dock, and emptied 8 trash cans.
- 21 trash capture devices cleaned and inspected.

Traffic Operations

- Weekly visual for preventative maintenance of intersections
- Weekly visual inspections of lighted crosswalk
- Marked out 4 locations for Underground service alerts
- Assist street crew to install 2 ADA Ramps on Hiller and Marine View
- Install float system on pump #2 at San Juan pump station
- Ralston Banners – 2 down; 2 up
- Painted 217 feet of red curb
- Removed dangerous tree branch hanging over Ralston
- Trouble shoot and make safe underground electrical distribution problem at the Sports Complex
- Replaced 26 signs
- Fabricated 40 signs
- Straightened 3 sign poles
- Installed 6 new signs
- Repaired 3 street lights
- Replaced 1 delineator
- Trimmed vegetation to improve sight distance

Streets Division

- Marked out 19 locations for Underground service alerts
- Form for 2 ADA ramps on Hiller at Marine View
- Poured 8 yards of concrete for 2 ADA ramps on Hiller at Marine View

City-Wide Sanitary Sewer Root Foaming Maintenance to Continues

In an ongoing effort to conduct preventative maintenance on the City's sanitary sewer mains, 40,000 feet of sewer main throughout the city will be treated with root foam. Root control is an important element of an effective overall strategy to maintain sewer systems. Dukes Root Foaming (City's contractor) will be conducting the root foaming and is anticipated to be complete by May 23rd. Dukes Root Foaming will notify residents if they need access to an easement on their property. If residents have any

questions, they may contact the Public Works Department at (650) 595-7425.

Ralston Ranch Pump Station Installs New Debris Catcher

On Tuesday, May 13th the Public Works Sewer Division installed a debris catcher at the Ralston Ranch Pump Station. Due to recent pump clogs caused by flushed rags and wipes, staff decided to try out a new device that would help alleviate clogged pumps and catch debris before it entered the wet well. Maintenance crew rechecked the debris catcher 24-hours later to inspect the pump station and found the debris catcher was filled with wipes and other non-flushable debris. Staff cleared the catcher and will continue to monitor and conduct preventative maintenance, and public outreach in this neighborhood.

Typically, this cloth-like material doesn't break down in the sanitary sewer system like toilet paper, and it can block sewer lines, clog equipment and increase the cities' maintenance and repair costs. Consumer Reports tested several brands of wipes labeled flushable and found that while toilet paper

disintegrated after about eight seconds, the wipes still hadn't broken down after 30 minutes.

We like to remind folks that toilet paper and human waste are the only items that should be flushed. Other waste products should be disposed of properly in the trash can. [TELL A FRIEND.](#)

Annex Room at Barrett Community Center

The Parks and Recreation Department has completed the improvements to the Annex Room at the Barrett Community Center. Recreation Supervisor Mary Doherty and Recreation Specialist Sinead Cunningham collaborated on the vision of turning the room into a warm waiting/seating/meeting area for our community. Parents, friends, supporters, staff and participants of City programs, events and classes will now have a place to comfortably wait while visiting the site. The room is equipped with tables, chairs and Wi-Fi. The project involved clearing out and discarding many unused items, painting along with the installation of new carpet and exit signs. The renovation has been very well received by instructors and participants.

Twin Pines Senior & Community Center's Transportation is "Up To Speed"

As you were informed last week, the Twin Pines Senior & Community Center has a new driver, Richard St. Claire, who has joined the Center as the Van Driver for Mondays, Tuesdays and Wednesdays.

The Center has a brand-new van, with a lift that is wheelchair/scooter accessible, has the Belmont logo as well as our website and motto: "Enhancing the Quality of Life for the Community"; abbreviated on the van due to space limitations. The "Twin Pines Shuttle" can take any Belmont resident from their homes to the center, and back again. This service is available for a \$1 donation each way, Mondays through Thursdays, and on 1st and 3rd Friday of the month from 9am-1pm.

NATIONAL PUBLIC WORKS WEEK

"SERVING YOU & OUR COMMUNITY"

CORPORATION YARD

OPEN HOUSE

Demonstrations

- Sewer Smoke Testing Demo House
- Sewer Line Jetting/Cleaning
- Making Concrete Curbs
- Video Line Inspections
- Catchbasin with a full capture device

Meet Public Works Staff, tour our Corporation Yard, visit our demonstration areas and check out displays by Public Works, Recology, and Mid-Peninsula Water District!

FUN AND PRIZES!

Thursday, May 22nd

Hosted By:

Public Works Engineering Open-House May 19-21

Location: One Twin Pines Lane, Suite 385 (City Hall)

Monday, May 19 th	8:00am-noon & 1:00pm-5:00pm
Tuesday, May 20 th	8:00am-noon & 1:00pm-5:00pm
Wednesday, May 21 st	8:00am-noon & 2:30pm-5:00pm

STORMWATER POLLUTION PREVENTION AWARENESS

Residents of Belmont can make a difference with their actions to prevent pollution. Everyday activities like washing your car or caring for your garden impact water quality. Come visit us to learn how you can adopt environmentally beneficial practices that improves local water quality.

HOUSEHOLD BATTERY RECYCLING

Gather your small, used household batteries and bring them in at our drop-off station in the Public Works Department for recycling. ****Please tape button batteries to paper and place in a zip-type bag. Leave cell phone batteries intact and wrap them in paper inside a zip-type bag.**

DO YOU KNOW YOUR PROPERTY BOUNDARY?

Have you ever wondered where your property boundary lies? Public Works Engineering will provide residents with a free color map showing individual property boundary in relation to a street.

DOES YOUR HOME CONTRIBUTE TO INFILTRATION AND INFLOW?

Infiltration is groundwater that enters sanitary sewers through defective pipe joints and broken pipes. **Inflow** is water that enters sanitary sewers from inappropriate connections. Learn how to prevent infiltration and inflow.

UNDERSTANDING ENCROACHMENT PERMITS

Are you repairing a sidewalk, sewer lateral, placing a debris box or performing any other construction within a public right-of-way? The Public Works Engineering Department will hold informational sessions to help understand the encroachment permit process and answer any questions you may have.

SELECTING THE PROPER CLEANOUT CAP

Are you missing or need to replace your old cleanout cap? Stop by and view the cap display to see which cleanout cap would best suite your pipe opening.

FOR IMMEDIATE RELEASE

Interstate 280 Bridge Hinge Replacement Project
104-Hours (4 Days-8-Hours) Road Closure Planned for Memorial Day Holiday Weekend

San Francisco – In seven days the California Department of Transportation will close southbound Interstate 280 from downtown San Francisco to the Pennsylvania Avenue on-ramp. This closure is necessary in order to replace one bridge hinge on southbound I-280. Additional closures are planned for the Fourth of July and Labor Day holiday weekends to replace bridge hinges on northbound I-280.

The first closure is scheduled for the Memorial Day weekend. **Southbound** I-280 will be fully closed between downtown San Francisco and the Pennsylvania Avenue on-ramp.

Full southbound closure Begins: 9 p.m. Thursday evening, May 22
Full southbound closure Ends: 5 a.m., Tuesday morning, May 27.

Southbound on-ramp closures include:

- Mariposa Street/18th Street on-ramp
- 6th Street/Brannan on-ramp
- King Street on-ramp

Detour: In general, southbound I- 280 traffic will detour to U.S. 101. Mariposa Street/ 18th Street traffic can also detour to the southbound I-280 Pennsylvania Avenue on-ramp.

Note: northbound I-280 will remain open over the Memorial Day Holiday Weekend.

Additional closures are planned for

- 4th of July Holiday Weekend (Thursday, July 3 – Tuesday, July 8)
- Labor Day Holiday Weekend (Thursday, August 28 – September 2)

For more information about the project, visit the Department's website at <http://www.dot.ca.gov/dist4/projects/280Bridge>, or follow us on Twitter @caltransd4.
